facials – clinical

Our clinical facials offer personalized treatments utilizing a variety of results-driven products, carefully selected for your unique needs. Therapists also provide recommendations for a corrective skincare regime to fit your lifestyle.

Manual Micro-crystal

An amazing alternative to laser or chemical peels, this noninvasive manual treatment is recommended to diminish the appearance of fine lines, wrinkles, mild acne, blotches, and small scars.

Problematic Skin

This facial will help purify, as well as soothe and balance, oily and acneic skin. Deep cleansing eliminates and prevents breakouts and congestion, while exfoliating and the application of antibacterial and anti-inflammatory products, leaves the skin clean, calm, and refreshed.

Anti-aging

This extraordinary facial is recognized as one of the most advanced approaches to unwanted signs of aging. The focus is on helping to diminish fine lines, lax skin, pigmentation, sun damage, and scarring. High levels of vitamins A, C, and E and growth factors feed the skin's upper layers, promoting collagen and elastin production, increasing hydration, and generating healthy cell development. This treatment includes care of the face, neck décolletage, hands, and arms.

Intensive Hydrating

Our intense and luxurious hydrating facial treats winter-parched or sun-damaged skin. A lactic acid mask adds moisture as it gently exfoliates dead cells. Vitamins A and C are propelled into the skin to help restore moisture and firmness, improve skin texture, and reduce irritation. Skin will be renewed, healthy, hydrated, and glowing.

Vitamin C

To restore radiance, this superb treatment infuses the skin with Vitamin C to lessen signs of sun damage. Powerful antioxidants help reestablish the skin's clarity and repair damage done by time and the elements. Skin will be brighter, firmer, and more radiant.

Sensitive-skin

Our truly gentle, nonirritating facial features a calming and restorative skin treatment for those individuals who experience redness, irritation, and dryness. Using a combination of vitamins, antioxidants, and growth factors, the facial will begin to rebalance and restore the skin's integrity. Products contain no artificial fragrance or colorants.

Alpha Lipoic

This facial begins with a superior exfoliation of the skin, using a gentle, hand-applied microdermabrasion cream. A mask is then applied to draw out impurities and toxins. Next, the skin is treated with Alpha Lipoic Omega, a unique product that increases skin firmness, minimizes pores, and improves skin tone and texture.

Glowing Performance

This medically based skin care treatment increases your skin's metabolism causing rapid cell regeneration, oxygenation, and nutrient absorption. This classic facial is recognized as one of the most effective antiaging skin care systems – giving your skin a more youthful appearance.

Peel
